Senior Ruby Developer

Inbank is a successful growing European bank that operates now in four countries. Our business is run on modern cloud-hosted systems that are developed and maintained by our own small IT team. We have set new ambitious goals and need your help.

We are looking for a back-end/full-stack developer who wants to grow professionally. We provide you with a complex challenge to work and prove yourself. If you like small and dynamic organizations, international environment and friendly colleagues - then you are the one we are looking for.

JOB DESCRIPTION

- Develop and maintain Inbank systems
- Integrate 3rd party services and build APIs for integrations
- Take part in business, IT architecture and design discussions
- Solve problems, help team-mates

YOU WILL FIT WELL IF

- You have a proven track record in Ruby (on Rails) or in another web development toolset
- You adapt fast to changing situations and priorities
- You are hungry for new challenges and finding best solutions
- You are OK with DevOps mindset and take end-to-end responsibility

WE OFFER

- Start-up minded spirit in a successful growing European bank
- Flexible work hours
- International, ambitious team
- Best tools for the job, pro-learning environment
- Penthouse office in Kalamaja
- Fully stocked kitchen
- Fun team events

IN OUR DEV TOOLKIT YOU'LL FIND

- Ruby, Rails, Java, AWS, Docker, PostgreSQL, Git, JavaScript, CSS, HTML and room for new tools
