

APPLICATION SUPPORT ENGINEER

Inbank is a financial institution whose roots go back to 2010 and which offers credit and deposit products on six European markets. But our ambitions go even further. We are building a new kind of bank with the cornerstone of our strategy being masterful financial technology and geographic expansion. We are looking for talented people to contribute to the Estonian banking sector's success story here and elsewhere in Europe.

Are you the one we're looking for?

You have an analytical mind that can understand complex logic and see the invisible connections. You are friendly, service oriented, like to help others. You feel equally comfortable among IT geeks and busy business people. You like action and maintain control even when McClain enters your town. If you also like smaller organizations, international environment, friendly colleagues - then you are the one we are looking for.

HOW WE'D LIKE YOU TO HELP US:

- monitor, analyze and prioritize reported problems, maintaining situation awareness
- diagnose and troubleshoot the problems, expedite issues to fellow developers for solving
- act as incident manager and communication hub during crisis time
- facilitate constant improvement by pinpointing problems in our machinery
- build and improve toolset for processes monitoring and problem resolutions

WHAT WE'D LIKE TO SEE IN THE CANDIDATE:

- You take the responsibility
- You're eager to tackle new challenges and learn

- You find practical solutions and focus on the things that matter
- You have 3+ years experience in development or devops organization
- You are a friendly person

COMPENSATION AND PERKS:

- We offer highly competitive salaries and benefits packages, negotiable based on your experience and skill level.
- You'll get to work flexible hours and enjoy a fully stocked kitchen in our cozy modern office in Kalamaja, the trendiest part of town.
- We are open to remote working options.
- We're agile and have a high-performance development culture and plenty of startup spirit.
