

# DEVELOPER IN TEST

---

## Are you the one we're looking for?

We are looking for a test automation enthusiast who wants to grow professionally in this discipline. At the moment, we already have some automation in place but we are still at the beginning of our journey.

We provide you with a complex challenge to grow and prove yourself. Your work will provide a safety net for the rest of us, so your contribution matters.

If you like small and dynamic organizations, international environment and friendly colleagues - then you are the one we are looking for.

## HOW WE'D LIKE YOU TO HELP US:

- Enhance our vision for the test automation framework
- Implement this vision together with the rest of the team
- Contribute to our manual testing efforts, automate them
- Take part in architecture and design discussions
- Solve the problems, help teammates

- You have previous experience with some test automation toolsets
- You have experience in software development
- You are a friendly person and not afraid of humor

## COMPENSATION AND PERKS:

- We offer highly competitive salaries and benefits packages, negotiable based on your experience and skill level.
- You'll get to work flexible hours and enjoy a fully stocked kitchen in our cozy modern office in Kalamaja, the trendiest part of town. We're also open to remote working options.
- We're agile and have a high-performance development culture and plenty of start-up spirit.

## WHAT WE'D LIKE TO SEE IN THE CANDIDATE:

- You are willing to take responsibility
- You're eager to tackle new challenges and learn
- You focus on practical solutions and the part that matters
